

OWEN PUGH

Product Data:

Filter Drain Material – Type B

Geometrical:

Size designation	20/40
Grading category	G _c 80-20
Particle size distribution	
- Typical Grading	

Sieve size (mm)	Percentage by mass passing Typical Grading
80	100
63	100
40	83
31.5	50
20	7
10	3
0.063	1.7

Physical:

Resistance to fragmentation	
- Los Angeles coefficient, 10/14 fraction	LA ₅₀

Thermal & Weathering:

Magnesium sulphate soundness	MS ₂₅
------------------------------	------------------

Chemical:

Total sulphur	S ₁
Acid-soluble sulphate	AS0.2

Technical information

Frost Heave	n/a
Plasticity index	Non-plastic
Uniformity coefficient	n/a

Date: 11/2009
Ref: PDS/09
Version: 004
