

05.08.10.

As part of our continuing development of the business, we have completed the purchase of a new Volvo A25E 25 ton dump truck. The machine has been purchased with extended warranty and will be maintained by Volvo Construction, Birtley who we are sure will provide excellent service.

Owen Pugh & Co Ltd decided to purchase the Volvo following many years of operating A25Cs which have given the business excellent productivity and full life costs. This machine has gone straight to work for Owen Pugh Contracts who are constructing and lining a new cell at the Sita Landfill Site, Pathhead, Blaydon.
