PLANT REFURBISHMENT

Owen Pugh has the facilities to refurbish any item of Plant or Commercial Vehicle. The Tractor and Tanker above was in a very dilapidated condition having spent several years on a Contract right next door to the ravages of the North Sea. Following an overhaul of the mechanical systems in our extensive workshops by our engineers, the pair was steam cleaned; shot blasted and repainted in our purpose built painting facility. Should you have any maintenance or refurbishment requirements, please contact Dennis Derrick on 0191 2500315.
